Farhaan Pasha

Azure Developer

Experienced Azure Developer with a solid background in AI-Delivery, specializing in Azure technologies and AI solutions. Skilled in AzureOpenAI service, Langchain LLM Framework, Azure Functions, Azure AppService, and Azure Bot Framework. I have been having a proven track record in developing and deploying scalable cloud solutions and AI applications. My technical expertise extends to full-stack development with JavaScript, Python, ReactJS, Node.js, HTML, and CSS.

Address
Bangalore, India

Education

2018 - 2022

Bachelor's of Engineering

Rajiv Gandhi Institute of technology

Skills

- Vision Transformers
- Multi-Head Attention Mechanism
- Retrieval Augmented Generation
- Convolution Neural Network
- Transfer Learning
- Fine-Tuning
- Cloud Architecture Design API
- Excellent Communication
- Critical Thinking / Problem-Solving

Language

English

Hindi

Urdu

Experience

2022 - Present

Malomatia India Technology Private Limited

Azure Developer - Data / AI Delivery

AI Chatbot Development using Azure OpenAI and Langchain -
Project Description:
- Designed and implemented chatbot functionalities using Azure OpenAI, ensuring seamless natural language processing and user engagement.
- Utilized Langchain to enhance the chatbot's language understanding capabilities, enabling sophisticated dialogues and queries.
- Developed the user interface using ReactJS, creating an responsive design that aligns with user expectations and accessibility standards.

AI Dashboard for Search Profile Querying -
Project Description:
- Implemented a solution for an AI-powered dashboard that allows querying of search profiles based on specific criteria.
- Utilized large language models (LLMs) to generate matching results dynamically, enhancing user experience and search functionality.
- Developed and integrated advanced filtering and data retrieval techniques to support real-time data processing and visualization.

Certifications

Machine Learning with Python   -   Coursera, 2023

Introduction to Deep Learning & Neural Networks   -   Coursera, 2024

PyTorch for Deep Learning Bootcamp   -   Udemy, 2024

Interests

- Tech Meetups and Conferences: Actively attending tech meetups and conferences, showcasing a commitment to staying abreast of the latest industry trends and networking with professionals.
- Programming Challenges and Hackathons: Participating in programming challenges and hackathons, highlighting problem-solving skills and a passion for coding outside of work
- Learning New Languages and Technologies: Dedication to learning new programming languages and exploring emerging technologies, demonstrating a love for continuous learning and adaptability
- Outdoor Activities (Hiking, Cycling, etc.): Pursuing outdoor activities, indicating a balance between screen time and physical fitness, and a love for exploring.
- Volunteering in Community Tech Education: Volunteering to teach or mentor in community tech education programs, reflecting leadership skills and a commitment to giving back to the community.
